

Education

Northeastern University, Boston, MA, USA

(09/2015 - 12/2020)

Ph.D. in Computer Science, Advisor: Seth Cooper

Dissertation: "Designing Effective Interfaces for Motivating Engagement in Crowdsourced Image Labeling"

National Technical University of Athens, Athens, Greece

(09/2009 - 06/2015)

Degree in Electrical and Computer Engineering (5-year study program, M.Eng. equivalent)

Work Experience

Microsoft Research, New York City, NY, USA

(03/2021 - 06/2023)

Postdoctoral Researcher, Computational Social Science Group

References: Dan Goldstein & Jake Hoffman

- **[Project]** Worked on the Perspectives Engine project on building AI tools for statistical literacy.
- **[Project]** Conducted research on the impact of LLM powered search tools on consumer research and decision making.
- **[Technical Contributions]** Developed pipelines for extracting and analyzing data from large knowledge bases (e.g., Wikidata). Developed computational models in Python and R for re-expressing complex numerical information, improving decision making.
- **[Technical Contributions]** Created virtual lab systems in React, Node.js, JavaScript and TypeScript. Automated the end-to-end flow of experiments, from launch, to monitoring, statistical analysis and visualizations, using Python and R workflows.
- **[Impact]** My research work has been deployed to Microsoft PowerPoint, Microsoft Word and Microsoft Outlook.

Northeastern University, Boston, MA, USA

(09/2015 - 12/2020)

Research Assistant, Khoury College of Computer Sciences

References: Seth Cooper & Sara Wylie

- **[Projects]** Created Cartosco.pe, an open-source crowdsourcing platform for environmental justice, disaster response and citizen science, Tile-o-Scope Grid, an image matching web game, and Tile-o-Scope AR, an Augmented Reality tabletop toolkit.
- **[Contributions]** Led an interdisciplinary team of developers, academics, designers and non-profits. Set research agendas, implemented features and launched key in-person and online global events.
- **[Technical Contributions]** Conducted research studies using quantitative and qualitative methods. Developed Python workflows for extracting spatial data from available APIs. Built models for analyzing and visualizing user data in R and JS.
- **[Impact]** Published papers at top venues on how developed features led to improved crowd engagement and experience.

Microsoft Research, New York City, NY, USA

(05/2018 - 08/2018, 05/2019 - 08/2019)

Research Intern, Computational Social Science Group

- **[Project]** Worked on the Perspectives Engine project about generating helpful analogies for unfamiliar numbers.
- **[Technical Contributions]** Designed and developed an online crowdsourcing platform and database for generating perspectives for helping people understand unfamiliar numbers encountered in news and other sources.
- **[Technical Contributions]** Developed gamified interfaces for crowd ideation and explored the impact of gamification in eliciting high quality reference objects for re-expressing complex numerical information.
- **[Impact]** Conducted A/B testing on multiple aspects of the platform that led to significant improvements in quality of generated perspectives, resulting in product deployments.

Northeastern University, Boston, MA, USA

(Fall 2019)

Teaching Assistant, Theory and Methods in Human Computer Interaction (CS7340)

Gave lectures and led in-class activities. Mentored students on conducting research, giving presentations about various HCI concepts, and preparing scientific papers, resulting in submissions to top tier academic conferences that year.

Velti, Athens, Greece

(10/2014 - 03/2015)

Junior Software Engineer, Innovation Department

Worked on *OPENi*, a European Union ICT Project. *OPENi* is an open-source, web-based framework for integrating applications with cloud-based services and personal Cloudlets. Created an Authentication Server, as well as a fully functional web user interface for data visualization for *OPENi*.

Technical Skills

Languages

English: Fluent
French: Good
Greek: Native Speaker

Programming Skills

Python, R, JavaScript, TypeScript	CSS, HTML, AngularJS, React
Node.js, AWS, SQL	C#, Unity
Shiny, D3.js, Plotly, Power BI	Figma, Adobe Photoshop

Selected Projects

- **Perspectives Engine:** Developed a scalable system for improving statistical literacy in news and other media by automatically generating numerical analogies tailored to different audiences. Trained and evaluated computational models using open-source data for relevance signals. Conducted experiments measuring model performance on two global markets, achieving 80% preference rates for U.S. audiences and 59% for French audiences.
- ☞ **Cartosco.pe:** Developed a web crowdsourcing platform for image labeling using Node.js, MySQL, JavaScript, AngularJS, CSS and HTML. Conducted data analysis using R and Python. Empowered non-profits to set up projects using different task templates, upload data and generate real-time results and map visualizations.
- ➦ **Tile-o-Scope Grid:** Developed an image matching web game for image labeling in Unity using C#. Implemented Reinforcement Learning algorithms for serving level difficulties that led to increased engagement and output levels.
- 🧩 **Tile-o-Scope AR:** Led a team of developers and designers in developing an Augmented Reality tabletop toolkit for image labeling using Unity. Led user studies on the impact of collaboration/competition in user experience and engagement.
- **Time Zone Perspectives:** Collaborated with a multidisciplinary team on building a web tool for predicting and auto-completing time zone information. Our tool has been deployed on Microsoft Outlook.

- Best Student Paper Award Nomination**

Awards, Service & Misc.

- 📅 PC Member: FDG 2021, FDG 2017. Reviewer: CHI 2022, IEEE Transactions on Games 2020, CHI PLAY 2019, ISCRAM 2018.
- 🏆 Awarded: Khoury College of Computer Sciences PhD Community Service award (2021).
- 🏆 Awarded: Dissertation Completion Fellowship from Northeastern University (2020).
- 📅 Organizer: NEU's Khoury PhD Women Group, Khoury PhD Social Hour, MSR-NYC Giving Committee.
- 👤 Nominated: Outstanding Graduate Student Research Award (2018).
- 👤 Invited to present Cartosco.pe at a citizen science exhibit at the Cleveland Museum of Natural History (2017).
